

DEDICATION

We are living, living our values of Dedication,
Having that drive and staying power with purposeful application,
We have the very same important soul mission,
Cause our core values are rooted in a strong personal & professional vision.

That deep satisfaction to see ourselves and our company grow,
Is imbedded deep within us and we can't help but show,
The willingness to meet every single deadline,
Through hard work, perseverance and enthusiasm, forms our baseline.

Our strong support team stays committed to every task at hand,
The key, being dedicated to give of our time and energy as our trademark brand.
Our Department has a Financial Controller, Accountants and we boss the CFO,
Clerks doing Payables, Receivables and overseas Cambio.

Our dedication to our work is towards our company and fellow work colleagues,
The customers we serve and treat as family shows we operate in a certain league,
We build upon established relationships, staying true to who we are,
No matter what challenges come, we operate with excellence, raising the bar.

As a department working together, shows that we are 100% engaged,
Being there for each other besides work, allows us to grow and be encouraged,
Though we work hard, we still have fun, definitely not playing a part,
With God in our lives, we demonstrate true Dedication straight from the Heart.
